FCC ID TRGMHF-R220BT

This device complies with part 15 of the FCC rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference and
(2) This device must accept any interference received, including interference that may
cause undesired operation.

* IMPORTANT NOTE: To comply with the FCC RF exposure compliance requirements,
no change to the antenna or the device is permitted. Any change to the antenna or
the device could result in the device exceeding the RF exposure requirements and
void user's authority to operate the device.

The changes or modifications not expressly approved by the party responsible for
compliance could void the user's authority to operate the equipment.

 ③ Power Cable (for Parking Sensor) ④ Ultrasonic Sensor (Attach Type ; 2EA)
 ⑤ Power Adapter (for HandsFree Kit) ⑥ Line Connector ⑦ Screw Bolt
 ⑧ Control Box ⑨ Cable Tie

Introduction

The **Parking Sensor HandsFree Car Kit (MHF-R330BT)** is a wireless device that utilises the latest **Bluetooth*** technology to communicate with your compatible phone within a 10-metre range.

This allows you to talk through its built-in high quality loudspeaker and external high sensitivity microphone without the need to hold the phone or take your hands off the steering wheel.

The **ModooFree Plus BT (MHF-R330BT ; Rearview Mirror HandsFree Car Kit)** is developed with the best digital technology and the highest quality components.

ModooFree Plus BT provides a comfortable and easy parking as the sensors enable the driver to detect obstacles in the back which cannot be seen from the rearview mirror. When the vehicle is in reverse gear, the sensor put in a back of the vehicle detects an obstacle by transmitting and receiving ultrasonic pulses to / from the obstacle. The controller senses the distance from the obstacle and sends the distance signal to buzzer / LED or display. The buzzer / LED or display warns the driver by making alarm sound or showing the distance from the obstacle. **ModooFree Plus BT** is designed to assist the driver to avoid damage of the vehicle and / or accidents during parking. **ModooFree Plus BT** insure all of our customers safety and quality.

Notes :

* *Bluetooth wireless technology is an international standard for short range wireless communication. It allows you to establish a wireless connection within a range of 10 metres between your **MHF-R330BT** and a compatible device.*
Bluetooth is a registered trademark of Bluetooth SIG Inc.
